The present European war has demonstrated that the country that will win is the country that has the latest improvements of inventive genius. How can America be prepared for an emergency? Not alone with a big navy and a strong army. It must have equipment from the best brains. I am seeking for the navy preparedness to mobilize the brains, and genius and inventive talent of America. It is gratifying that the most important societies America have responded to my invito the thanks of the American people. They serve without compensation and country calls them to patriotic service.

OBJECTIONS REGISTERED TO CHIMBORAZO PLAN

At a mass-meeting held at Chim-borazo School on September 3, a plan was approved for the removal of all the tracks on Broad Street eastwardly from Twenty-first Street, except the single block between Twenty-fourth and Twenty-fifth Street.

Although this plan received 100 votes more than the most popular rival plan, objections were registered against it by a delegation from Church Hill when the Council Street Committee met last Tuesday for the purpose of taking action on the re-routing ordinance

At the request of Councilman Sullimittee that a considerable proportion of Church Hill residents were not satisfied with the action of the Chimborazo meeting, the committee postponed final action on the ordinance until a meeting to be held on Sep-tember 22. While the mass-meeting at Bellevue School to-night was not called by Councilman Sullivan, it is understood that it is being staged by Miss Caroline Marsh, of Catawba, is expected this week to visit her mother.
